

YES, YOU CAN LEARN TO DRAW!

With your instructor: Robin Coalson

I know, I know...you "Can't draw a straight line"...so you're hopelessly doomed when it comes to drawing...right?? Oh so wrong!

People will take a class or pay for lessons to learn how to play an instrument, speak a foreign language or waltz around the ballroom, but when it comes to drawing, folks think you "either have it or you don't".

But you CAN learn to draw! This is a class specifically for those who have little or no drawing ability, and for those who want to improve their drawing skills.

Are you stuck using stencils for your carving designs? Do you get lost when you remove your stencil or carve deeper into your project? Are you just basically embarrassed because you're supposed to be "artistic", but you can't draw? Can you draw certain things with ease, but have a horrible time with other subject matter? Or do you simply want to learn a new, artistic skill??

Let Robin help you learn to draw in this fun and informative class.

You'll learn:

WHY you have so much trouble when you try to draw...

WHY certain subject matter may seem easier to draw than others..

HOW to set up your environment for drawing success..

WHY you want to plug your nose (no, really...you do!)

HOW to see correctly so you can draw...

WHAT your brain has to do with it...

HOW a scrap of paper can be one of your best drawing tools...

TOOLS to help you get your proportions right....

WHY you want to draw shapes, not things...

AND...HOW TO DRAW THINGS SO THEY LOOK LIKE WHAT THEY ARE SUPPOSED TO BE.

This is a beginners class and will focus on line drawings...getting things looking correct and in proportion. For shading and other more advanced

drawing skills, check out the follow up class..."IMPROVE YOUR DRAWINGS WITH LIGHT AND SHADOW".

This is a one day, intensive hands-on class.

9:00-5:00 (includes lunch)...Bring a sketchbook. Pencils, erasers and handouts included.
